

Swachhata Hi Seva (SHS) campaign at ICAR – Directorate of Cashew Research , Puttur

On 1st October, 2019 as part of the SUP free India campaign, a lecture on problems of plastic pollution was organized at the ICAR- Directorate of Cashew Research, Puttur. Dr. Mohana, G.S. Senior Scientist at the Directorate gave the presentation. His talk highlighted the history of plastics, types of plastics, pollution due to plastic and its ill effects on land, water and aquatic creatures.

After the presentation, a quiz covering the aspects of SHS was held and four teams had participated. It was very effectively conducted and these two programs have been successful in creating the awareness on plastic pollution.
